-Shifting Ground-

A survey of emerging contemporary artists of Greek descent

Composed of five contemporary artists of Greek descent, *Shifting Ground* surveys a new generation of artists working within the realms of conceptual, installation and performance art.

Selected for their disparate conceptual and aesthetic tendencies, the artists' investigate the shifting ground of Greek Australian identity and Art over recent periods and reflect the extent to which current events influence these shifts.

For more information into the program and to book tickets to selected events please go to www.greekfestivalofsydney.com.au

High-resolution images are available on request.
